

To,
Mr. Harshad Bhamre
CEO & Founder, Nabhangan Engineers

Subject: 10-Day Free Trial Access — Nabhangan Engineers Workflow Tracker

Dear Mr. Bhamre,

We are pleased to extend a **10-day free trial** of the **Nabhangan Engineers Workflow Tracker** — a purpose-built digital platform developed by Chemiligence Solutions for property valuation and site survey management.

Thank you for your valuable inputs. The platform has been customised to suit the specific operational needs of Nabhangan Engineers, and we are confident it will meaningfully streamline your team's workflow.

The platform is accessible at: <https://nabhangan.chemiligence.in>

Key Features

- 1. End-to-End Case Tracking** — 8-stage workflow — Lead to Dispatch — with full visibility, stage-wise progress, and admin control to advance or revoke any stage.
- 2. Role-Based Access** — Separate dashboards for Admin and Staff. Each user sees only their relevant work, ensuring clarity and data security.
- 3. Digital Site Survey Form** — On-site data entry with GPS capture, photo uploads (up to 10/case), and custom fields configurable per project at the lead stage.
- 4. Third-Party Surveyor Link** — Admin generates a secure, one-time link for external surveyors — no login needed. Case auto-advances on submission.
- 5. Printable Site Survey Report (PDF)** — Professional report with logo, bank & property details, GPS, valuation summary, site photos, and signature strip.
- 6. Real-Time Dashboard & Reports** — Live staff occupancy, activity logs, project timeline, and CSV export — all timestamps in Indian Standard Time.

Login credentials and a detailed feature overview are enclosed with this letter.

Pricing will be mutually discussed and finalised after the trial period.

We look forward to your team's experience and remain available for any support during the trial.

Warm regards,

Dr. Nimish Pankhedkar

Platform Features & Capabilities

Nabhangam Engineers — Project & Workflow Tracker

A SaaS product by Chemilignence Solutions (AAN EduTech) · Licensed to Nabhangam Engineers

8-Stage Case Workflow

1 Lead

2 Survey

3 Rate Verif.

4 Drafting

5 Checking

6 Print

7 Scan

8 Dispatch

Each stage is tracked separately. Staff are assigned per stage. The case advances only when the current stage is submitted and approved.

- Role-based access — each person sees only their stage
- Auto-advance on third-party survey submission
- Admin can revoke any stage for correction
- All timestamps in Indian Standard Time (IST)

© 2026 Chemiligence Solutions (AAN EduTech) · Licensed to Nabhangam Engineers · Valid till 26 June 2026

Owner / Administrator Features

DASHBOARD & OVERVIEW	CASE MANAGEMENT
✓ Live case count across all 8 workflow stages ✓ Realtime Occupancy — staff on currently active work ✓ Third-party surveyor tracking with link status ✓ IST-personalised greeting	✓ Create cases with bank, owner & property details ✓ Add custom survey fields per case at lead stage ✓ Edit case info at any time; delete (admin only) ✓ Mark documents pending; approve flagged cases
STAFF ASSIGNMENT	STAGE CONTROL
✓ Assign staff to any of the 8 workflow stages ✓ Visual assignment matrix — all cases × all staff ✓ Assign non-project 'Other Tasks' to any staff ✓ Generate secure third-party survey links	✓ Advance case to next stage when ready ✓ Revoke submitted stage for correction ✓ Auto-advance when third-party survey submitted ✓ Visual progress stepper on every case
ACTIVITY & TIMELINE	ACCOUNT & SECURITY
✓ Activity History: files, time logs, third-party submissions ✓ Project Timeline: staff, hours & submission timestamps ✓ Lead creation date shown; all timestamps in IST ✓ Download Timeline as CSV	✓ Secure login with Supabase authentication ✓ Change password with current password verification ✓ Role-based access — admin sees all, staff sees own ✓ Session-protected routes throughout

Owner / Administrator — Reports & Admin Modules

SITE SURVEY REPORT (PDF)	ADMIN MODULES
✓ Printable PDF with Nabhangan Engineers logo ✓ Bank info, owner, property address, site visit details ✓ GPS coordinates from on-site measurement ✓ Property dimensions, building features & valuation ✓ Custom project-specific fields in separate section ✓ Site photos embedded (up to 10) ✓ Signature strip and copyright footer	✓ Staff directory — add, edit, activate / deactivate ✓ Assignments panel — stage allocation for all cases ✓ Other Tasks — assign non-project work to staff ✓ Third-Party Survey Link with custom expiry ✓ Task Requests — approve or reject staff requests ✓ Reports module for business analytics

CUSTOM SURVEY FIELDS — How It Works

1

Admin adds fields when creating or editing a lead

2

Fields appear in survey form for staff or third-party

3

Filled values saved with the survey report data

4

Custom fields print as 'Additional Info' in PDF

Staff Member Features

PERSONAL DASHBOARD	CASE WORK
✓ All cases currently assigned to them ✓ Total hours logged across all cases ✓ Attendance summary for the current month ✓ Pending task requests at a glance	✓ Access assigned case detail page ✓ Fill and submit site visit report ✓ Custom survey fields specific to each case ✓ Upload photos & documents; log hours
SURVEY FORM	ATTENDANCE & REQUESTS
✓ Full site visit data entry (all standard fields) ✓ Custom fields added by admin for that case ✓ One-tap GPS capture; photo upload (up to 10) ✓ Save draft and return later; submit locks form	✓ Mark daily attendance (present / absent / half-day) ✓ View attendance history for current month ✓ Submit task requests to admin ✓ Track status of submitted requests
ACCOUNT	VISIBILITY PERMISSIONS
✓ Self-service password change ✓ Current password verified before update ✓ View own profile details	✓ Can view case progress and Activity History ✓ Can download Site Survey Report PDF ✓ Cannot edit case details or delete cases ✓ Cannot see other staff's data or admin modules

Third-Party / External Surveyor

SECURE LINK-BASED SURVEY SUBMISSION

- ✓ Admin generates a one-time secure link with configurable expiry (6 h – 72 h)
- ✓ External surveyor accesses the full form directly — no login or account required
- ✓ Form includes all standard fields plus custom fields defined for that case
- ✓ One-tap GPS location capture on mobile
- ✓ Photo uploads directly from the field
- ✓ Draft auto-save — surveyor can return and continue before final submission
- ✓ On final submit: case automatically advances to Rate Verification stage
- ✓ Link becomes invalid after submission; used-at timestamp recorded
- ✓ Surveyor name and submission time visible in Activity History and Project Timeline

WHY THIS MATTERS

- No app install needed — works in any mobile browser
- Secure — link expires and becomes invalid after use
- Auto-advances workflow — no manual step needed from office
- Custom fields travel with the link — surveyor fills all required data
